REQUEST FOR CERTIFICATE OF CORRECTION

Commissioner for Patents:

A Certificate of Correction is respectfully requested in the above-identified patent.
The following errors have been made.

Related U.S. Application Data has been omitted from the cover page of the issued patent. Both Item (63) and Item (60) should be added. As set forth on the Filing Receipt (dated May 6, 2004, a copy of which is enclosed herewith) and in the Office Action (dated September 27, 2006), this patent is a divisional of Application No. 09/788,280, filed on February 15, 2001, now U.S. Patent No. 6,743,900, which claims the benefit of U.S. Provisional Application No. 60/182,476 filed on February 15, 2000.

In Item (56), References Cited, Other Publications, the following errors are present:

In the Jahn-Schmidt reference, the section "controlled responses" is incorrect. As set forth in the references cited by the examiner attached to the Office Action dated September 27, 2006 the correct section should read as --controlled vaccination responses--.

NOV 12 2008

In the Hashigucci reference, the journal title "*Vaccino*" is incorrect. As set forth in the Information Disclosure Statement filed July 22, 2005 the correct journal title should read as --*Vaccine*--.

In the Levi reference, the page range "1353-1358" is incorrect. As set forth in the Information Disclosure Statement filed July 22, 2005 the correct page range should read as --1353-1359--.

In the Lowell reference from the journal *Science* the publication year "1955" is incorrect. As set forth in the Information Disclosure Statement filed July 22, 2005 the correct publication year should read as --1988--.

In the second Lowell reference from the journal *Infection and Immunity* the author's name "Lowall" is spelled incorrectly and the title of the journal "Intech. & Imm." is spelled incorrectly. As set forth in the Information Disclosure Statement filed July 22, 2005 the correct spelling of the author's name should read as --Lowell-- and the correct spelling of the journal's title should read as --Infec. & Imm.--.

In the Mallet reference the page range "2382-2388" is incorrect. As set forth in the Information Disclosure Statement dated July 22, 2005 the correct page range should read as --2382-2386--.

NOV 12 2008

Attached is the certificate of correction, which indicates the corrections to be made by reference to item numbers in the printed patent. Because the errors were made by the U.S. Patent and Trademark Office, no fee is necessary. However if the errors are determined to be Applicants' errors, the Director is hereby authorized to charge payment of any fees associated with this communication to Deposit Account No. 19-1090.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
